

# 2007 Pennsylvania Aging and Behavioral Health Forums

This one-day program is for any individual working with older adults who are at risk for developing behavioral health problems, including social workers, housing coordinators, personal care and assisted living staff, nursing home and home health care providers. The Target Audience should also include the County Mental Health, Behavioral Health and Aging systems who assisted in developing their county's Memorandums of Understandings.

In 2006, the Pennsylvania Department of Aging and Department of Public Welfare's Office of Mental Health and Substance Abuse Services required Memorandum's of Understanding to encourage counties to pull resources and better serve older individuals across the county's and state systems. The Aging and Behavioral Health Forums in keeping with the voice of the Memorandums of Understandings will emphasize a multidisciplinary approach to providing services to older adults and the need for cross system collaboration. County's offering Mental Health and Aging Best Practice programs will be highlighted. Information on a variety of services available to older adults will be discussed.

*PLEASE NOTE:* There is NO fee associated with this training.
